WILSON TO ASK "FREE SUGAR" TARIFFREPEAL

Act Also to Be Sought, Says McAdoo.

A BOND ISSUE FOR DEFENCES PLANNED

Extra Session of Congress in November Expected at Capital.

Administration will ask for the indefinite suspension of the free sugar schedule at the next session of Congress.

Information as to the Administration's bandonment of the idea of permitting sugar to go on the free list was conveyed in an announcement from Secretary of the Treasury McAdoo to-day, Mr. McAdoo announced that he will recommend in his forthcoming message to Congress that the existing duties on sugar be retained for several years. He will recommend, in addition, that the war revenue act be extended until peace s restored in Europe.

The belief was expressed here tonight that as a result of the determination of the Administration to restore sugar duty and reenact the war emergency revenue act Congress will have to be called in extra session some time in November. Congress is scheduled to meet in regular session on Decem

These are distinctly revenue measures, and are necessary in view of the extraordinary conditions now prevailing throughout the world.

It is impossible to state at the moment what, if any, additional revenue measures may be necessary, the estimates of the various de s clear, however, that two sources partmental estimate may be.

The situation in Greece is complex. King Constantine, it is reported, is endeavoring to form a coalition Ministry, but the action of the Chamber of Deputies in such a case is problematical. The Greek people, seemingly, are strongly in favor of the Allies' cause. French troops, on landing at Salonica, received an enthusiastic reception from the populace. Seventy thousand troops are said to have already been landed there, and more are on the way. The first contingent is said to have reached Serbian territory.

The text of the French Minister's announcement of the arrival of French proops at Salonica for the assistance of Serbia and M. In answer to your letter I have the honor to declare to your Excel-lency that, being neutral in the European war, the royal Government could not possibly authorize the pro-ceeding in question, for it constitutes a breach of Greece's neutrality, the more manifest since it comes from two great belligerent Powers.
